

# The National Breeders Championship

Enter any Three of the Six “One Loft” Race Series listed below  
And You Are Automatically Entered to Win Thousands of Dollars

All participating One Loft Races are contributing \$2 of every perch fee towards Capital Prizes

No Limit to the number of races (minimum of three) you may enter

No limit to the number of birds you may enter

Winner are selected based on Series Average Speed Results

Your Best Average Speed Results from any Three Participating One Loft Races  
Will be used to determine the “Top Ten” Breeders in the National Breeders Championship

Capital Prizes will be awarded to the top four breeders as follows: 40%, 30%, 20%, 10%

Though you may enter as many birds as you want in as many races as you desire  
Consideration will be given to each breeder's total number of entries when rating Breeder Results

## Rules

1. All Participating One Loft races, will contribute \$2.00 per paid perch fee towards the National Breeders Championship Capital Prize Fund
2. All participating One Loft Races will submit Average Speed results for a three race series. If a participating One Loft Race has more than three races, they may submit any three consecutive races for average speed as long as the total distance flown (barring weather induced drop backs) is at least 600 miles and they have identified to the breeders which three races will be Championship Series races prior to accepting entries.
3. The "Top Ten" Championship Breeders will be Announced in a full page Racing Pigeon Digest Ad, paid out of the Capital Funds. All remaining Capital funds are 100% distributed with no cuts, to the top four Championship Breeders: 40%, 30%, 20%, 10%
4. The Breeders Championship Selection Committee will consider the best Average Speed results from three race series, for each breeder. We are not comparing velocity, but rather a bird's ranking in comparison to other birds in the same competiton.
5. For each race series, the committee will take into consideration, the total number of birds competing, the difficulty of completing the series, standout performances by any one particular bird and the number of birds entered by each breeder
6. A Breeder must use the same registration name in all race series. If you list birds under different names in different series, then those average speed results cannot be combined for consideration in the National Breeders Championship
